

Family Engagement Survey: Chantilly High School

Results and Analysis

School Year: 2023-2024

Purpose and Details of the Study

The Fairfax County Public Schools Family Engagement Survey asked parents/guardians for feedback on their involvement and engagement at their child's school.

K12 Insight partnered with division staff members to develop the survey, which addressed the following topics:

- Welcoming Environment
- Communication
- Student Success
- Advocacy
- Family and School Partnerships
- Collaboration With the Community

This survey was open from March 3 to April 3.

Email invitations with unique survey links were sent to parents/guardians. Reminders were sent throughout the survey window. Parents/Guardians also could participate via a public link on the division's website. Paper surveys were available on request. Parents/Guardians with children attending more than one division school could take the survey for each school.

The survey and email invitations were translated into Amharic, Arabic, Chinese, Farsi, Korean, Pashto, Spanish, Urdu, and Vietnamese.

Understanding the Results

This report summarizes school-level survey results and compares them with those from 2021-2022 and 2018-2019.

K12 Insight uses census sampling, which provides data reflective of all voices in the community. While all parents/guardians were invited to take the survey, not all participated. Statistical tests designed to infer the perceptions of a larger population from a smaller sample size are not appropriate; rather, descriptive statistics provide the most accurate representation of the data. Therefore, the findings herein cannot be generalized beyond the participants. Nevertheless, this study offers valuable insights about the perceptions of parents/guardians.

The findings for each item exclude participants who did not answer. In charts and graphs, data labels less than 5 percent are not shown. Percentages may not total 100 due to rounding.
